

BRAND NEW! **NETWORK**

Learner Profile™ 3.0

SUNBURST. Track assignments, manage grades, take attendance, organize student information, evaluate learning, and develop comprehensive reports with **Learner Profile™ 3.0**! This powerful and secure database tool allows you to create or import criteria by which students' learning will be evaluated.

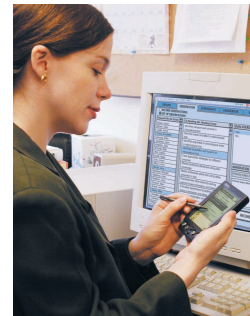

Newly updated! **Learner Profile™ 3.0** for your desktop has new features:

- **integrated, full-featured GradeBook**
- **powerful database accommodates state and local standards**
- **redesigned, easy-to-use interface**
- **flexible framework for creating targeted lesson plans**
- **broadened technical capabilities**
- **enhanced report writing options**
- **on-screen Tutorial**

Network and Web Server Versions with Administrative Control Options

- **improve teamwork and collaboration**
- **promote equity by creating a common framework for assessment and communication**
- **provide teachers with downloadable learning standards and observable criteria**
- **allow teachers to work from home, the library, or other remote locations**
- **let teachers share selected information with parents and colleagues on a secure Web site**

MAC / WIN CD 9639DH

1 PLAN!

On your desktop, create learning indicators for individuals or groups. Download plans to your PDA.

2 OBSERVE!

As students read, calculate, perform, and demonstrate their learning, simply click on their names, the learning indicator, and their level of mastery. Send the events of the day back to your desktop computer.

3 REPORT!

Automatically manages data and students' records. Effortlessly provide reports to students, parents, teachers, department heads, and administrators.

BRAND NEW!

Learner Profile™ to Go 3.0

SUNBURST. Gather student information as it occurs with **Learner Profile™ to Go 3.0** installed on your Palm OS-compatible PDA. Now, you can attend to administrative duties, implement teaching plans, and record students' performances, behaviors, and progress toward your teaching goals. At the end of the day upload data to your desktop computer for evaluation.

NEW features on the updated **Learner Profile™ to Go 3.0**:

- **more organizational options on interface**
- **HotSync® capabilities for smoother data transfer**
- **easily transfer data to other PDAs via an infrared beam**

MAC / WIN CD 9644DH

Learner Profile™ to Go 3.0 requires Learner Profile™ 3.0 software.
