Learner Profile[™]

Assessment Tools for Educators

These powerful and flexible software tools help you manage your busy instructional day.

With **Learner Profile**, you have the support to create teaching plans around state standards and other learning objectives. Track students' performances in small reading groups, on field trips, in science labs, and in other real-time learning environments.

Easy-to-manage databases allow you to write, store, and access student information and your learning objectives. Automatic record keeping and an integrated *Gradebook* help you uniformly assess learning using a variety of measures.

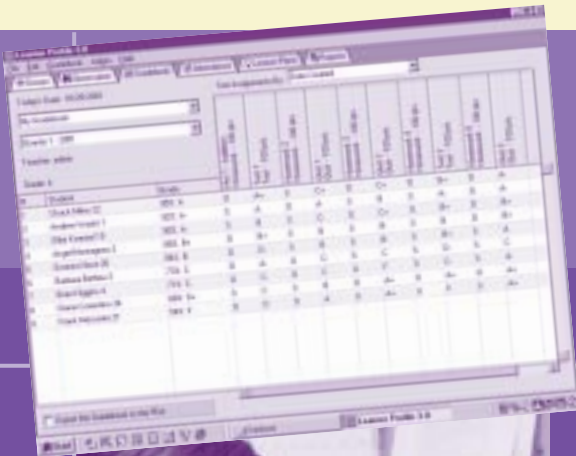

From informal observations recorded on a PDA to pencil-and-

Systematically Evaluate Students in Every Learning Situation

paper tests graded on a traditional scale, you can develop assessment models that completely benchmark your students' progress.

Improve your level of instruction with **Learner Profile**. By viewing your collected data, you can document learning needs and respond with targeted teaching strategies. An array of reporting options lets you generate personalized reports to students, teachers, school specialists, administrators, and parents.

Communicate your goals and accomplishments with consistency and accuracy. In addition, you will have the technical support to handle all your administrative functions effortlessly.

plan

Easy-to-navigate interface coordinates all functions

- ✓ Maintain and transfer records, reports, and student data
- ✓ Use customizable fields to store additional student information

Create goals to meet learning objectives and state standards

- ✓ Share sets of learning objectives with colleagues and supervisors
- ✓ Respond to students' progress with a targeted instructional plan

Integrated Gradebook manages ALL assessments

- ✓ Maintains students' records automatically
- ✓ Supports alpha-numerical systems and custom grade scales
- ✓ Balances observations with traditional tests and quizzes

Save Time and Improve Productivity

- ✓ Facilitates detailed, high-level reporting
- ✓ Share selected information with students, parents, teachers, and supervisors
- ✓ Ensure privacy with *Customizable Permissions Setting*

observe

Conduct Standards-Based Assessment as You Interact With Students!

- ✓ Transfer learning objectives to a Palm™-OS compatible PDA
- ✓ Use stylus to select students, learning objective, and qualifier
- ✓ Write anecdotal observations on PDA
- ✓ Upload recorded data anytime using HotSync™ technology

Stay Mobile and In Touch

- ✓ Take attendance, check homework, and grade tests on your PDA
- ✓ Use infrared beam to transfer data from one PDA to another
- ✓ Monitor behavioral, academic, and social issues

report

Provide a Complete Picture of Students' Performance

- ✓ Evaluate uploaded data and written observations
- ✓ View weighted and quantified data in the *Gradebook*
- ✓ Organize, edit, and store student records in password-protected files

Streamline Duties with Effortless Reporting

- ✓ Retrieve, sort, and view all your recorded data
- ✓ Select from 15 report templates for students, parents, specialists, and administrators
- ✓ Modify templates by selecting preferences to create highly customized reports

INTEGRATED GradeBook

**Manage grades and assessment data in
a full-featured electronic GradeBook!**

Familiar format with customizable features:

- Score and manage grades, attendance, and observable data in *Gradebook*
- Provides optional integration of observational data into *Gradebook*
- Weight and convert observable data sets into quantitative averages
- Supports alpha-numerical systems and custom grade scales
- Permits reassignment of grade by teacher only

Network Version

With Administrative Control Options
Improves Teamwork and Collaboration!

- Keep your teaching teams working together
- Promotes equity by creating a common framework for assessment and communication
- Manage information on students, personnel, and curriculum with multiple levels of access and security
- Provide teachers with the ability to import records and pre-written learning standards

Web Version

Internet Access
Improves communication and mobility!

- Work from home or other remote locations
- Share information on a secure Web site
- Activate *Read-Only* option to secure information
- Improve district-wide communications

What educators are saying about Learner Profile™!

“ I have used Learner Profile for over six years — when you find quality tools, you stick with a winner! Learner Profile is my champion for all my software needs regarding student achievement, assessment, and accountability. ”

John Drag, Jr., Principal, Charter School of Excellence, Broward County, Florida

“ In our district, we have implemented a quality approach to education. I have found Learner Profile to be an asset in assisting administrators and teachers in managing by fact. It also assists teachers in the realm of authentic and alternative assessment. ”

Larry Shouse, Principal, Battlegrand Elementary School, Lincoln City, North Carolina

“ Learner Profile allows me to take attendance, evaluate based on national, state, and personal standards. Students and parents are very pleased with the ability I have to evaluate the student's performance. ”

Joseph Green, 7th Grade Science Teacher, Irving Middle School, Norman, Oklahoma

“ As a speech and language pathologist who serves a number of sites, it is great to have all of my student files on my PalmPilot™ - I don't have to carry a large number of file folders from one school to another. I am able to relate my observations to IEP goals and objectives. In the age of accountability this is extremely important. ”

Chris Ungar, Speech Pathologist, San Luis Obispo County, California

Your Entire School Community Benefits!

Teachers

- Saves valuable planning time
- Improves responsiveness
- Fosters collaboration and communication

Curriculum Directors

- Facilitates standards-based learning
- Improves grading consistency
- Supports administrative observations

Special Education Teacher

- Accommodates students' IEP information
- Monitors discrete student behaviors
- Captures anecdotal observations

Principals

- Provides 'real-time' access to data and records
- Eases data analysis and statistical reporting responsibilities
- Improves school-wide accountability

Parents

- Provides access to important school-provided information
- Improves communications with school
- Builds community support of instructional goals
